Dated: 26.12.2025

To,
The Member Secretary
Delhi Pollution Control Committee
3rd Floor, Block-1, DMRC IT Park,
Shastri Park, Delhi-110053.

Sub: Submission of Six monthly DEC-2025 compliance report of Environmental Clearance letter and also Six monthly CTO compliance for "Iemon Tree & Red Fox Hotel" located at Asset no. 06, Hospitality District, DIAL, IGI Airport, New Delhi By M/s Hyacinth Hotels Pvt. Ltd.

Ref. No.: File No. DPCC/SEIAA-SEAC/153/12/227
EC letter No, DPCC/SEAC/153/SEIAA/20/2013 dated 30th July, 2013

Dear Sir,

With reference to the above mentioned subject, we are herewith submitting the six monthly compliance report of EC & CTO for the month of DEC- 2025 along with related Annexures for your kind perusal.

We fully assure you that, we will comply with all conditions as specified Environmental Clearance and Consent to Operate.

Thanking you,
Yours sincerely,
For M/s Hyacinth Hotels Pvt. Ltd.

DEC-Report-2025

SPECIFIC AND GENERAL CONDITIONS AS PER THE ENVIRONMENTAL
CLEARANCE LETTER NO:DPCC/SEAC/153/SEIAA/20/2013; dated 30/07/2013,
(ANNEXURE I) FOR CONSTRUCTION AND OPERATION PHASES OF THE
PROJECT PERIOD APRIL 2025 to SEPTEMBER 2025.

PART A. - SPECIFIC CONDITIONS

I. Construction Phase

I.	Construction should be started after obtaining prior Consent to Establish from Delhi Pollution Control Committee (DPCC) under Air and Water Acts and a copy shall be submitted to the SEAC-Delhi, failing which project shall be discontinued.	Construction was started after obtaining Consent to Establish from DPCC, Consent to Establish letter is enclosed as Annexure- 1.
II.	Provision shall be made for the housing of labours within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care along with first aid room, crèche etc. The housing may be in the form of temporary structures to be removed after completion of the project.	The construction of the project has been completed and it is in operational phase. All necessary provisions was followed during construction phase.
III.	Health and safety norms of CPWD should be followed during construction	Complied.
IV.	Top soil excavated during construction activities should be stored within the site for use in horticulture/landscape development.	Complied.
V.	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed of taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority	Project is in operational phase, same was followed during construction phase.

For Hyacinth Hotels Pvt. Ltd.

"Lemon Tree Premier & Red Fox Hotel"
Asset no- 6, Hospitality District,
DIAL, IGI Airport, New Delhi

DEC-Report-2025

VI.	Proper measures should be adopted to control dust emissions during construction phase by providing adequate numbers of water sprinklers.	For controlling dust emissions during construction phase all necessary precautions were taken.
VII.	Soil and water samples of the site should be tested by the project proponent through any laboratory recognized by DPCC to ascertain that there is no threat to ground water quality by leaching of contaminants, on quarterly basis for inclusion in the six monthly reports.	It was done at the time of construction.
VIII.	Construction spoils, including bituminous material and other hazardous materials, must not be allowed to contaminate watercourses and the dump sites for such material must be secured so that they should not leach into groundwater. Bulk of the demolition waste should be recycled and minimum possible demolition waste should be dumped at designated dumping site.	The construction of the project has been completed while project in its operational phase, hence this condition is not applicable.
IX.	Bio-medical waste, if any, shall be disposed of as per the Bio-medical waste (Management & Handling) Rules, 1998 and authorization shall be obtained from DPCC as per applicability.	There is no Bio-medical waste generated, hence this condition is not applicable.
X.	Any hazardous waste generated during construction and operation phase should be disposed off as per applicable rules and norms with necessary authorization from Delhi Pollution Control Committee.	Hazardous waste generated during construction was well managed & disposed off as per applicable rules and norms. There is some hazardous waste generation during operation phase and proper channelization is used to handle the waste which is handle by Authorized vendor of PCB, return has been filled enclosed form
XI.	The diesel generator sets to be used during construction phase should be operated on low sulphur diesel and should conform to the Environment Protection Rules prescribed for air and noise emission standards.	Complied. For Hyacinth Hotels Pvt. Ltd.

Authorized Signatories

"Lemon Tree Premier & Red Fox Hotel"
Asset no- 6, Hospitality District,
DIAL, IGI Airport, New Delhi

DEC-Report-2025

XII.	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from Chief Controller of Explosives shall be taken.	Diesel for DG sets was stored in daily storage drums in very low quantity as per threshold limit applicable for temporarily storage of diesel for which agency has been appointed who manage the waste properly.
XIII.	Vehicles hired for bringing construction material to the site should be in good condition, have pollution check certificate, conform to applicable air and noise emission standards. These vehicles should be operated only during non-peak hours. The material loaded or unloaded should be covered (Especially excavated soil) before transportation to avoid fugitive emissions etc.	Complied.
XIV.	Ambient noise levels should conform to prescribed residential standards both during day and night hours. Adequate measures should be made to reduce ambient air and noise level during construction and operation phase, so as to conform to the norms stipulated by CPCB/DPCC. Ambient air and noise monitoring should be done by an accredited lab and data should be submitted along with compliance report in every six month.	Environment monitoring report is enclosed, Monitoring has been carried out by NABL accredited lab.
XV.	Thick green belt of the adequate width and density, along with adequate tree plantation to create a buffer zone as per plan submitted, shall be raised along the periphery of the plot so as to provide protection against particulates and noise.	Thick Green belt has been developed in the project. Planted thick green belt acts as noise barrier attenuation factor which will reduce the noise level from outside source. Indigenous variety of plant species is planted around the project periphery to absorb maximum dust and to reduce noise level. Photographs showing greenbelt developed in the project premise
XVI.	Natural drainage should be preserved as far as possible.	Within 7 KM of the project site there is no Natural drainage
XVII.	Rain water harvesting, as per plan submitted, for roof top run-off and surface run-off should be implemented. Before recharging the surface run-off,	The implementation of rain water harvesting for roof top, run-off and surface run-off has been done as per submitted plan. Bore for rainwater

DEC-Report-2025

	pre-treatment must be done to remove suspended matter, oil and grease. The depth of the bore for rainwater recharging should be kept in consultation with DJB. No waste water (such as sewage, trade effluent, backwash of treatment unit, floor washing waste water etc) should be discharged into the rainwater harvesting structure in order to avoid groundwater contamination. The collected rainwater, if any should be properly treated before use.	recharging has been kept in consultation with DJB. No waste water is being discharged into the rainwater harvesting structure in order to avoid groundwater contamination. To Remove suspended matter, oil and grease before recharging surface run off, pre-treatment is being done time to time.
XVIII.	The ground water drawl during construction and operation phases should be done only with the prior permission of DJB. Until then, no ground water shall be used in construction activities. The ground water level and its quality should also be monitored regularly in consultation with DJB.	Not Applicable. There was no ground water extraction done at time of construction. In its operational phase also the source of water supply is Delhi International Airport Private Limited. Recent water bill of water is enclosed.
XIX.	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification dated September 14 th , 1999 and amended as on August 27 th , 2003.	It was used during construction of project.
XX	Ready Mix Concrete must be used in building construction to minimize the use of water.	During construction, it was practiced.
XXI	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices preferred.	It was done at the time of construction.
XXII	Fixtures for toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.	Required fixtures have been installed for toilet flushing and drinking
XXIII	Energy Conservation Building Code to be strictly adopted in all aspects of building design and construction. Requirements of GRIHA rating, if proposed, should be followed.	Energy Conservation Building Code has been adapted to maximum possible extent in all aspects of building design and construction.
XXIV	Approval of Chief Fire Officer and Delhi Urban Arts Commission for	All necessary approvals have already been obtained. NOC from chief Fire

DIAL, IGI Airport, New Delhi

DEC-Report-2025

	Building Plans, approval of Airport Authority of India for Building Height and approval of other authorities viz Land owning Agency, DJB, MCD, NDMC, DISCOM, etc should be obtained.	Officer is enclosed.
XXV	NOC for cutting of trees, if any, should be obtained from Department of forest & Wildlife.	Not Applicable.
XXVI	Approval of competent authority shall be obtained for structural safety of the building due to earthquake. Adequacy be ensured for firefighting equipments etc as per National Building Code including protection measures from lightening etc.	All safety measures were taken as per National Building Code. Approval of competent authority was obtained for structural safety of the building due to earthquake. Structural Safety certificate is enclosed.
XXVII	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to neighbors.	It was done at the time of construction.

II. Operation Phase

I	Consent to operate under Air and Water Acts shall be obtained from DPCC before operation, failing which the Environmental Clearance herein shall be deemed to be withdrawn.	Consent to operate under Air and Water Acts is granted by DPCC.
II.	The zero wastewater discharge condition shall be achieved with installation of a well designed on-site Sewage Treatment Plant (STP) for the generation of sewage and Effluent Treatment Plant (ETP) for any type of effluent and the treated waste water shall be reused in HVAC cooling, flushing through dual plumbing and in Horticulture. The STP/ETP should be certified by an independent expert and adequacy report in this regard should be submitted to Delhi Pollution Control Committee before the project is commissioned for operation. Water meters at all appropriate places shall be installed to know the quantum of water	STP of 220 KLD based on FAB technology is installed for the treatment of waste water generated within project. STP is installed in the basement mitigate odor problem STP was certified and report was submitted. Total waste water generation in the project is 181 KLD. 169 KLD water is recoverable after treatment by STP which is used through dual plumbing in Flushing (54 KLD), Horticulture (13 KLD), Cooling Towers (90 KLD), Boiler (2 KLD) and back wash. STP was certified and report was submitted, water meters are installed at appropriate places. STP analysis report is enclosed as and

DEC-Report-2025

	used, wastewater, treated water recycled/reused in HVAC, flushing and horticulture/ gardening, necessary measures should be made to mitigate the odor problem from STP/ETP.	also online monitoring system is installed annexure-II.
III.	The Solid waste (dry as well as wet garbage) generated should be properly collected and segregated. Biodegradable (wet) garbage generated should be converted to compost or biogas by suitable technology. Non- Biodegradable waste should be outsourced properly after recovery of recyclable material. Paper recycling unit should be installed for recycle and reuse of waste paper. Adequate measures should be taken to prevent odor problem.	In the hotel, total municipal solid waste generation is 629 kg/day. OWC has been provided in the hotel for treatment of organic waste. Recyclable and non recyclable solid waste is disposed off through government approved vendors. Necessary precaution is being taken to minimize nuisance of odor, flies and rodent.
IV.	Bio- medical waste, if generated any, shall be disposed of as per the Bio-medical Waste (Management & Handling) Rules, 1998 and authorization shall be obtained from DPCC as per applicability.	Lemon Tree & Red Fox is hotel, hence there is no Bio- medical waste generation in the project site. Therefore no permission from DPCC is required.
V.	Utilization of Diesel power generating sets is subject to power failure condition only, The DG sets proposed as a source of power back up during operation phase should be of enclosed type. The DG sets of capacity more than 1000 KVA should be provided the stipulated stack height of 30 meter from the ground. If not possible due to any reason, permission from MoEF must be obtained specifically for stack height of such DG sets. All the DG sets should be subjected to periodic noise and stack monitoring in consultation with DPCC. Waste/used diesel should be stored and managed as per Hazardous Waste (Management and Handling) Rules, 2000 as amended to date and be sold to CPCB approved recyclers, Clearance from AAI should be obtained for stack height of D.G set.	In the project site, 3 no. (1x 1010 kVA and 2 x 750 kVA) of D.G sets have been installed as power backup during power failure condition. D. G sets are enclosed in acoustic enclosure to reduce noise level. Stack height of D.G Set is 6 m above the height of building as per norms NOC from AAI is already obtained and submitted with earlier compliance. Used diesel is stored and managed as per Hazardous And Other Wastes (Management and Tran boundary Movement) Rules 2016 and used diesel is sold to PCB approved recyclers.

VI	Traffic congestion near the entry and exit points from the roads adjoining the project site must be avoided. Parking should be fully internalized and no public space should be utilized. Separate parking provision should be provided for handicapped persons.	Adequate parking facility of 324 ECS has been provided in hotel which is shown in traffic circulation plan submitted in earlier compliance. Parking is fully internalized and no public space is utilized and separate parking is provided for handicapped persons.
VII	Energy Conservation measures such as solar lighting for common areas, solar water heating system, LED lights, solar inverters etc should be adopted.	Energy Conservation measures such as solar lighting for project boundary areas, LED lights in common areas have been provided.
VIII	A report on energy conservation measures conforming to energy conservation norms finalized by Bureau of energy Efficiency should be prepared incorporating details about building materials and technology, R&U factors etc and submit a copy to ministry of Environment & Forests, Regional Offices, Chandigarh and DPCC in three months time with Intimation to SEIAA	The guidelines of Bureau of energy have been incorporated in the design and building construction for conservation of energy.

PART B. - GENERAL CONDITIONS

I	The environmental safeguards and monitoring schedule as contained in the EMP should be implemented in letter and spirit & there will be no departure from the final project proposal.	The environmental safeguards and monitoring schedule as contained in the EMP has been implemented.
II	The project proponent shall follow the revised Guidelines/criteria for Evaluation of proposals/Request for Ground water abstraction issued by Central Ground Water Authority (CGWA) vide letter no.21-4/Guidelines/CGWA/2012-4793 dated: 30.10.2012 which are in effect from 15.11.2012.	During construction phase water requirement was met by CSTP treated water and in operational phase demand of water is meeting by Delhi International Airport Private Limited, hence there is no extraction of ground water . Water bill is enclosed.

DEC-Report-2025

III	Corporate Social Responsibility should be carried out as per action plan and budgetary provisions submitted to SEAC subject to a minimum of 0.4% of total project cost as one time expenditure and 0.08% of the project cost as recurring expenditure.	CSR plan is enclosed.
IV	Officials from Ministry of environment & Forests, Regional Office, Chandigarh and Delhi Pollution Control Committee, who would be monitoring the implementation of environmental safeguards, should be given full co-operation to inspect the facilities and documents/data on site by the project proponents during their site inspection. A complete set of all the documents submitted to SEAC should be forwarded to Ministry of Environment & Forests, Regional Office, Chandigarh & DPCC. Six monthly monitoring reports should also be submitted to Ministry of Environment & Forests, Regional Office Chandigarh & to DPCC.	We are abiding with rules and regulations. Six monthly Compliance report is also submitted to regional office of MoEF & CC. Receiving of submitted compliance in June 2025 enclosed.
V	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by the SEAC and the Consent to Establish/Operation from DPCC as well.	Noted.
VI	In Compliance to Hon'ble High Court's order dated 7 th August, 2008, use sale and storage of all kinds of plastic bags shall be forbidden.	In hotel use and storage of all kinds of plastic bags are forbidden.
VII	E-waste generated in the complex should be managed as per E-waste (Management and Handling) Rules, 2011 and disposed through approved e-waste recyclers.	E- Waste generated in the complex is managed as per E-waste (Management and Handling) Rules, 2016 and disposed through approved e-waste recyclers
VIII	State Environmental Impact Assessment Authority reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including the revoking of the Environmental Clearance under the provisions of the Environmental	We are abiding with rules and regulations of State Environmental Impact Assessment Authority.

	(Protection) Act, 1986 to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.	
IX	All other statutory clearances such as approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department etc shall be obtained, as applicable by project proponents from the respective competent authorities	All required approval such as fire safety certificate, NOC from AAI regarding height clearance have already been obtained.
X	These stipulations would be enforced among others under the provisions of Water (Prevention and Control) Pollution Act, 1974, the Air (Prevention and Control) Act 1981, The Environment (Protection) Act, 1986, The Public Liability (Insurance) Act, 1991 and EIA Notification, 2006, as amended to date.	We are following the condition.
XI	The Project Proponent should prominently advertise in at least two local Newspapers, widely circulated in the region indicating that the project has been accorded Environmental Clearance and copy of clearance is available with the DPCC and may also be seen on the site of DPCC at http://www.dpcc.delhigovt.nic.in . The advertisement should be made within 10 days from the date of receipt of the Clearance letter.	It was done per directions.
XII	The Project Proponent should submit copy of environmental Clearance to the Heads of local bodies, Panchayats and municipal bodies in addition to relevant offices of government who in turn has to display the same for 30 days from the date of receipt	It was done as per the direction
XIII	The project proponent shall apply for amendment in EC, if there is change in building plan(s) & layout plan(s) by DUAC or any other authority after the grant of EC.	Noted.

Ltd.) Asset no. 6, Hospitality District,
Dial Aerocity, Delhi 110037

Party's Ref No: Verbal
Dated: 04/09/2025
Lab Job Order No: 503/09/25
Period of Testing: 06/09/2025 to 08/09/2025

TEST REPORT

A. SAMPLE PARTICULARS:

1. Name of the Unit	:	Lemon Tree Premier (A Unit of Hyacinth Hotels Pvt. Ltd.)
2. Name of Plant/Section	:	D.G. Section
3. Capacity of D.G.	:	750 KVA-I (With RECD)
4. Type of the Sample	:	D.G. Stack Emission
5. Date & Time of Sampling	:	06/09/2025 05:00 PM to 05:41 PM
6. Type of Fuel Used	:	Diesel
7. Stack height (From the Ground level)	:	90 Feet
8. Stack diameter	:	10 Inch
9. Point of Sample Collection	:	From port hole of stack
10. Purpose of Analysis	:	Monitoring
11. Sample Collected/ Supplied by	:	Lab Representative
12. Sampling procedure	:	As per IS 11255 (P-3)
13. Sampling Plan	:	5.7 F-01(C)
14. Weather Condition	:	Partly Cloudy

B. OBSERVATIONS:

1. Stack Temperature, °C	:	226
2. Ambient Temperature, °C	:	30
3. Flue gas velocity, m/sec	:	9.27
4. Sampling flow rate, lt./min.	:	24
5. Period of sampling, minutes	:	42
6. Volumetric flow rate, Nm ³ /Hr.	:	1004.9

C. TEST RESULTS:

S. No.	Parameter	Results	Standard Limits	Test Method
1.	PM(Particulate Matter), gm/kwh	0.020	0.03	IS 11255(P-1)
2.	Oxides of Nitrogen(NO _x), gm/kwh	0.33	0.67	IS 11255(P-7)
3.	HC(as NMHC), gm/kwh	0.12	1.9	UAL/SP/SE/01
4.	Carbon Monoxide(CO), gm/kwh	0.09	3.5	IS 13270

DPCC

DEC-Report-2025

TERMS & CONDITIONS AS PER THE CTO

1.	The Consentee shall meet the effluent standards i.e. pH= 5.5-9, Total Suspended Solids (TSS) ≤50, Biochemical Oxygen Demand (3days at 27degree Cent.) ≤ 30, Oil and Grease ≤ 10, Phosphate(as P) ≤ 5# All effluent parameters are in mg/l expect pH value	Noted lab report is attached as Annexure-1 where inlet and outlet reports has shown
2.	The Consent is activity specific and based on the information provided in the consent application along with the documents/ subsequent documents/information submitted to Delhi Pollution control Committee (DPCC). The consentee shall apply for fresh consent in case of any change in the activity /manufacturing process.	Noted surely the consentee shall apply for fresh consent in case of any change in the activity /manufacturing process.
3.	The consentee shall display the Name of the unit along with its Address, name of the proprietor/Directors/partners etc, Contact Phone No(s) and its Activities Processes/ Product etc, on a Display Board to be placed/fixed at the main gate of the unit	Noted and will do accordingly
4.	The consentee/unit shall have/take separate Electricity/Power connection in its name and shall have/ install separate meter in this regard	Noted for reference attached electricity bill Annexure-2
5.	The consentee shall provide and maintain separate drainage system for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of collection system and shall be connected to the conveyance system/ sewerage system of the area leading to common Effluent Treatment Plant of the Industrial Area/sewage Treatment Plant of the catchment area	Noted STP properly maintain by Lemon Tree officials.

	and Import of Hazardous Chemicals Rules, 1989, as amended to date, wherever applicable. All such wastes generated from the unit will be managed and handled as per the provisions of the said Rules and will be disposed only through the Recycler/Reprocessor /Authorized Agencies for such wastes, authorized by MOEF/Central Pollution Control Board/State Pollution Control Board/Committee/DPCC as per details available on their websites.	Rules, 2016. Waste Generated from the unit is strictly operate by Authorized vendor from MOEF/Central Pollution Control Board/State Pollution Control Board/Committee/DPCC as per details available on their websites, managed by Authorize vendor .
11.	The Consentee shall comply with the provisions of the Plastic Waste Management Rules, 2016, as amended to date, if applicable.	Noted, maintain by collecting wet and dry garbage in the plastic, and handover to the authorized vendor.
12.	The Consentee shall comply the other prescribed standards of Effluent/Emissions as prescribed and as applicable under the provisions of the Environment (Protection) Act, 1986, as amended to date and the various Rules made there under including the Noise Pollution (Regulation and Control) Rules, 2000 as amended to date	Noted
13.	The Consentee shall promote the use of CFL and recovery of mercury from CFL Lamps and should create a system of replacing of old bulbs for new to enable recovery of mercury after the bulbs are fused.	Noted, This is a green building, which follows all requirement under IGBC rule ,attached certificate .
14.	The Consentee shall not carry out any activity falling under the Prohibited/ Negative list of Industries (Annexure III of MPD -2021) which are prohibited in National Capital Territory of Delhi, as per Master Plan of Delhi	Noted
15.	Consentee shall reuse/recycle treated water up-to maximum extent to achieve the objective of zero discharge	Noted, treated water is used in the work of maintaining the greenery around, Rain water harvesting system is also followed by Lemon tree

DEC-Report-2025

		officials
16.	The Consentee having installed Sewage Treatment Plant (STP) of 235 KLD shall properly operate and maintain the STP to meet the prescribed standards as given in the Consent Order. Flow Meters/ suitable flow measuring devices shall be provided and maintained to measure the quantity of waste water generation and treatment by the unit and to quantify the reused of treated water. No bypass (Pipe / Drain) shall be provided. The treated effluent shall be used/ recycled by the unit. Records /Logbook shall be maintained for the operation of the STP, waste water generated, treated and used/recycled and shall be produced during the inspection of DPCC official(s)	Noted, properly operational and maintain STP 24/7 by Engineering team, lab report is also attached and photographs .
17.	The Consentee having installed Emission Control System (ECS) shall properly operate and maintain the ECS to meet the prescribed standards as given in the Consent Order. No bypass stack/ arrangement shall be provided. Records /Logbook shall be maintained for the operation of the ECS and shall be produced during the inspection of DPCC official(s). The Consentee shall provide and maintain ports in the Stack(s) /Chimney(s) and facilities such as ladder, platform etc. in good condition for monitoring of the emissions.	Noted, Emission Control System (ECS) shall properly operate and maintain the ECS to meet the prescribed standards as given in the Consent Order.
18.	Capacity of the Diesel Generator Set (s) installed in the unit 1X1010 KVA 2X750 KVA. The Consentee shall properly maintain the Acoustic Enclosure/ Acoustic Treated room for DG Set(s) in good condition and maintain the adequate stack height for DG Set(s) to meet the prescribed standards/ norms as mentioned above. The Consentee shall not operate the DG Set(s) till compliance of the prescribed norms/standards for DG Sets	Noted Noted all noise standards is done by notification provided by Ministry of Environment and Forest(MOEF&CC), Government of India Dated 17.05.2002 & 12.07.2004
19.	Project proponent will ensure use of ozone depletion substances (ODS) free appliances so that no toxic gases in air conditioning/ refrigeration/ fire extinguishers are created	Noted- all safety measures are concerned and strictly followed
20.	Zero garbage concept shall be implemented with appropriate technology of composting	Noted- Organic waste Converter technology of composting is used at site .
