

UNDER LENS

ED notice to NDTV for FEMA violations of ₹4,000 crore

Press Trust of India
New Delhi, October 18

THE ENFORCEMENT DIRECTORATE (ED) has issued a show cause notice to private television news channel NDTV for alleged violations of the forex law amounting to over ₹4,000 crore, the central probe agency said on Thursday.

"The investigation showed FEMA contraventions relating to receipt of foreign direct investment by NDTV to the extent of ₹1,637 crore and the other relating to overseas investments to the tune of ₹2,732 crore," the ED said in a statement.

The show cause notice, issued under the Foreign Exchange Management Act (FEMA), was issued to the founders and executive chairpersons of the group—Prannoy Roy and Radhika Roy—journalist Vikram Chandra

"The investigation showed FEMA contraventions relating to receipt of foreign direct investment by NDTV to the extent of ₹1,637 crore and the other relating to overseas investments to the tune of ₹2,732 crore," the ED said

and few others.

The contraventions have contravened the FEMA are NDTV Lifestyle Holdings (now NDTV Lifestyle and Media Holdings), South Asia Creative Assets, Astro Overseas and NDTV Imagine (now Turner General Entertainment Networks India).

The ED said the offences identified in respect of the first alleged contravention in the receipt of FDI pertains to "substantive contraventions of ₹319 crore by NDTV through contravention of press note 1 of 2005 and downstream investment of ₹138 crore without FIPB approval.

"The remaining contraventions relate to delays under FEMA in respect of allotment of shares within permissible time limit of 180 days and delays in filing nomination with the RBI and reporting requirements," the agency said.

As part of the second violation that has been show caused, the ED said "overseas investment made by NDTV and offences of ₹582 crore relate to contravention of substantive provisions of FEMA and the remaining contraventions of ₹2,414 crore relate to delays in filing reports and other requisite information

before the RBI."

The total contravention identified under the latest notice is ₹4,369 crore.

The agency said it is further probing an instance of FDI received by the media group worth ₹725 crore, which only the cabinet committee on economic affairs (CCEA) was competent to clear (cases of FDI in excess of ₹600 crore).

"But, no CCEA approval was taken (by NDTV)," the ED alleged.

"FDI was projected as below ₹600 crore as part of larger conspiracy. While applying for FIPB approval, NDTV projected FDI as varying between \$130 million and \$160 million. Documents of FIPB section also projected FDI differently as ₹585 crore (₹130 million at the rate of ₹45 per dollar).

"Further, investigation on this aspect is continuing," the agency said.

'Flipkart corners more than 50% share in festive sale'

PRESS TRUST OF INDIA
New Delhi, October 18

INCREASED BUYING IN smartphones and fashion verticals helped Walmart-backed Flipkart corner more than 50% share during the first leg of the festive sale, according to research firm RedSeer Consulting.

As per RedSeer's latest report, Flipkart had a 51% share, while Amazon had 32% of the festive sale from October 9-14.

"Flipkart accounted for

more than half of GMV for the entire industry. Between Flipkart and Amazon, the share was 62-38. Higher share for Flipkart was driven by higher sales in both mobiles and fashion verticals," RedSeer said.

When contacted, an Amazon spokesperson termed the report as 'speculative' that "lacks robust and credible methodology".

"We received an overwhelming response to the Great Indian festival, with first 36 hours nearly surpassing the entire first wave last year and the entire wave growing by 96% versus last year...the festive season so far has exceeded our most aggressive plans," the spokesperson added.

Other players like Snapdeal, Paytm Mall and ShopClues also ran their fes-

tive offers and accounted for 17% share of the sales.

Flipkart in a statement said the company "pushed the boundaries on many fronts and hit some of our biggest-ever numbers during its Big Billion Days (BBD).

"We maintained a clear leadership in deep-penetrated and high ASP categories," it added.

As per the RedSeer report, the fashion and smartphone verticals grew by 78% and 70%, respectively.

However, consumer elec-

tronics grew by only 45% despite large investments by both players in supply chain and affordability initiatives like debit card EMIs, it added.

RedSeer said its report is based on interview with experts from supply chain, banking ecosystem and brands, seller views, customer surveys and other research.

The report said Day 2 of the five-day sale was the biggest in terms of gross merchandise value (GMV) as it saw the launch of multiple new exclusives in mobile phones and other platforms as well.

After the second day, the growth of GMV stalled a bit, with last three days accounting for only 42% of sales compared to 60% in the first two days, it added.

Facebook launches 'war room' to combat manipulation

AGENCE FRANCE PRESSE
Menlo Park, October 18

IN FACEBOOK'S 'WAR ROOM', a nondescript space adorned with American and Brazilian flags, a team of 20 people monitors computer screens for signs of suspicious activity.

The freshly launched unit at Facebook's Menlo Park headquarters in California is the nerve centre for the fight against misinformation and manipulation of the largest social network by foreign actors trying to influence elections in the United States and elsewhere.

Inside, the walls have clocks showing the time in various regions of the US and Brazil, maps and TV screens showing CNN, Fox News and Twitter, and other monitors showing graphs of Facebook activity in real time.

Facebook, which has been blamed for doing too little to prevent misinformation efforts by Russia and others in the 2016 US election, now wants the world to know it is taking aggressive steps with initiatives like the war room.

"Our job is to detect...anyone trying to manipulate the public debate," said Nathaniel Gleicher, a former White House cybersecurity policy director for the National Security Council who is now heading Facebook's

cybersecurity policy.

"We work to find and remove these actors," Facebook has been racing to get measures in place and began operating this nerve centre — with a hastily typed 'WAR ROOM' sign on the glass door — for the first round of the presidential vote in Brazil on October 7.

It didn't take long to find false information and rumours being spread which could have had an impact on voters in Brazil. "On the election day, we saw a spike in voter suppression (messages) saying the election was delayed due to protests. That was not a true story," said Samidh Chakrabarti, Facebook's head of civic engagement.

Chakrabarti said Facebook was able to remove these posts in a couple of hours before they went viral. "It could have taken days."

At the unveiling of the war

room for a small group of journalists including AFP this week, a man in a gray parkie hat kept his eyes glued to his screen where a Brazilian flag was attached.

He said nothing but his mission was obvious — watching for any hints of interference with the second round of voting in Brazil on October 28.

The war room, which will ramp up activity for the November 6 mid-term US elections, is the most concrete sign of Facebook's efforts to weed out misinformation.

With experts in computer science, cybersecurity and legal specialists, the centre is operating during peak times for the US and Brazil at present, with plans to eventually work 24/7.

The war room adds a human dimension to the artificial intelligence tools Facebook has already deployed to detect inauthentic or manipulative activity.

"Humans can adapt quickly to new threats," Gleicher said of the latest effort.

Chakrabarti said the new centre is an important part of coordinating activity — even for a company that has been built on remote communications among people in various parts of the world. "There's no substitute to face to face interactions," he said.

IRB Infra ties up ₹981 cr from lenders for Vadodra-Mumbai Expressway section

IRB Infrastructure Developers (IRB Infra) said on Thursday it has tied up ₹981 crore finances from lenders for a project to widen a section of Vadodra-Mumbai Expressway. The support from the NHAH for the project will be ₹817 crore, while the equity contribution from the company will be ₹245 crore.
