Facebook launches ‘war room’ to combat manipulation

AGENCY: MUMBAI

In Facebook’s ‘War Room’, a nod to the intelligence war room with American and Russian forces in Syria, the social media giant is setting up a communications command center in Mumbai.

The freshly launched unit at Facebook’s Mumbai Park headquarters in California is the nerve center for the fight against misinformation and manipulation of the largest social networking site by terror or state actors operating inside and outside India.

The move is significant as it follows the time in various regions when Facebook has rolled out new features on admitting fake pages and TV ads on Facebook showing students discussing their experience with other monitors showing graphs of how their pages are manipulated.

Facebook, which has been trying to get more people to use its platform to present more information, has highlighted efforts to combat misinformation efforts multilateral efforts, including the 2019 US election, now wars and terrorism, where Facebook is taking aggressive steps with initiatives like the new one.

‘War Room’ is designed to make sure that the company can quickly respond to any misuse of its platform by malicious actors.

It is set to be the primary focus of Facebook and its partners to respond to the threat.

Inside the large, state-of-the-art facility, Facebook employees will respond to threats against the company’s users and the democratic process from 24/7.

The team will be trained to respond to threats from anywhere in the world, and will use the latest technology to help them.
