#### 3 Accessibility of workplaces

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

We take pride in designing all our hotels with universal access in mind. Our goal is to create barrier-free environments that cater to quests of all abilities, mobility levels and ages. By providing accessible public bathrooms and restaurants, we ensure that guests with disabilities feel welcome and included in our local community.

For our specially-abled quests, we offer well-designed rooms equipped with various features for their comfort and convenience. Starting from the entrance ramp that provides easy access to the lobby, our hotels are designed to be hassle-free for physically challenged quests. The lobby area seamlessly connects to elevators, specially designed public toilets and the coffee shop.

Our specially-abled rooms are thoughtfully equipped with features such as user-friendly elevators, close proximity to elevators (often on the first floor), wider main doors (1,000 mm) for wheelchair passage, a lower "magic eye" on the main door, lower luggage rack/table (below 450 mm), writing table at least 750 mm in height, bed height at 500 mm, no mini bar adjacent to the bed, key card fixture at a lower height, cordless phone, lower-fixed mirrors, audio-visual fire alarms, and direct emergency call bells at the Front Desk.

In the bathrooms, we ensure wash basins with adjustable heights, WC at 475 mm, shower seats at 475 mm width, knob-type shower mixer handles, hand showers without buckets or spouts, and stainless steel support railings for ease of movement. Additionally, we provide convex mirrors at lower levels and handicapped toilets in public areas with similar facilities.

#### **Further Details:**

We are deeply committed to promoting diversity and gender equality within our organisation, recognising the value it brings in tapping into often overlooked talent pools. As an equal-opportunity employer, we prioritise building a diverse, safe, and inclusive work environment. Embracing individual differences and empowering every employee to reach their full potential is central to fostering innovation, employee satisfaction, and unique ideas.

Our efforts towards inclusivity are focused on creating a workplace where everyone, regardless of their background, can work collaboratively towards shared goals. We understand that equitable employment generation is essential for driving sustainable socio-economic development in our nation. To promote diversity and inclusion, we actively hire Opportunity Deprived Indians (ODIs), encompassing Employees with Disability (EwD) and those from Economically and Socially Marginalised backgrounds (EcoSoc).

#### **Employees with Disability (EwD)**

We began our journey of hiring employees with special needs in 2007. Over the years, we have been strongly committed towards hiring individuals with special needs and creating an accessible and growth-oriented work environment for them. This includes individuals with:

1. Physical disabilities: Speech and Hearing Impaired (SHI), Orthopedically Handicapped (OH), Acid Survivors, Low Vision and

Across all our hotels, we have a significant presence of SHIs, followed by OH. Through our strategic partnerships with NGOs that focus on training of individuals with Intellectual and Developmental needs, we plan to continuously enhance and expand our traineeship model.

#### **Economically and Socially Marginalised segment (EcoSoc)**

We have focused on hiring people who belong to socially and economically weaker sections of society since 2016. #### 5 With respect to the ecologically sensitive areas reported at Question 10 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Lemon Tree's property in Bandhavgarh is located near a forest and the properties in Cochin, Muhamma/ Alleppey, and Candolim, Goa are located in coastal regulation zones.

We recognise the impact of the development and operations of our hotels and accept our responsibility towards the surrounding environment, natural resources, and biodiversity of the locations where we have our properties. We try to ensure that none of our operations lie within the boundaries of designated protected areas, such as national parks and wildlife reserves. Further, we shall strive to integrate our commitment to conserving biodiversity and habitat into our development/acquisitions and operations strategy.

For example at Bandhavgarh, some of the measures taken by us to minimise our environmental footprint include:

- Waste Management: We have discontinued the use of packaged drinking water, plastic cutlery, miniature toiletries, and single-use plastic. We have also selected a local partner to process and manage our kitchen waste and the compost generated through this is used in and around the reserve.
- Water Management: The water we use at the resort is treated at the Sewage Treatment Plant and reused to maintain the gardens at our hotel while ensuring no harmful water discharge in and around the resort.
- Supporting Local Flora and Fauna: We recognise our role in supporting the local forest division in managing forest fires near the resort. Furthermore, we have also planted over 100 trees within our premises to maintain the greenery of the surrounding areas.

These initiatives have helped us in ensuring that our operations are not in conflict with nature.
