

INDEPENDENT AUDITOR'S REPORT

To The Members of Fleur Hotels Private Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Fleur Hotels Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

Attention is invited to Note 31 of the standalone financial statements which sets out the Company's assessment of impact of COVID-19 pandemic situation, the uncertainties associated therewith on its financial statements and going concern assumption. Based on these assessments, the management has concluded that the Company will continue as a going concern and will be able to meet all of its obligations as well as recover the carrying amount of its assets as on March 31, 2021.

Our opinion is not modified in respect of this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to

influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all

relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, no remuneration has been paid by the Company to its directors during the year.
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. (Refer Note 33)
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses. (Refer Note 42)
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company. (Refer Note 44)

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Fleur Hotels Private Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A

**Deloitte
Haskins & Sells LLP**

company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) The Company has a program of verification of fixed assets to cover all the items in a phased manner over a period of two years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, some of the fixed assets were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
- (c) According to the information, explanations given to us, and the records examined by us, we report that based on examination of the confirmation received by us from "Vistra ITCL (India) Limited" (custodian) on behalf of Yes Bank, "Catalyst Trusteeship Limited" (custodian) on behalf of Aditya Birla Finance Limited, and confirmation received from Kotak Mahindra Bank, Axis bank, HDFC Bank and IndusInd Bank in respect of immovable properties (freehold land and buildings disclosed as fixed asset in the financial statements), whose title deeds have been pledged as security for loans, are held in the name of the Company other than the freehold land and buildings located at Andheri Mumbai, Gachibowli Hyderabad and Candolim Goa admeasuring 5552.9 sq mt, 4168.41 sqmt and 1.72 acre, respectively whose title deeds are in the name of the Meringue Hotels Private Limited, Nightingale Hotels Private Limited and Begonia Hotels Private Limited respectively, erstwhile companies that was merged with the Company under Section 230 - 232 of the Companies Act, 2013 in terms of the approval of the National Company Law Tribunal.
- (ii) As explained to us, the inventories were physically verified during the year by the Management at the reasonable intervals and no discrepancies were noted on physical verification.
- (iii) According to the information provided and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013.
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 186 of the Companies Act, 2013 in respect of making investments. The Company has not granted any loans, made investments or provide guarantees under Section 185 of the Companies Act, 2013. As per Section 186 (11) read with Schedule VI, provisions of Section 186 with respect to grant of loans and providing guarantees would not apply to the Company as the Company is providing infrastructural facilities.
- (v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public. The Company does not have any unclaimed deposits and accordingly the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 are not applicable to the Company.

**Deloitte
Haskins & Sells LLP**

- (vi) According to the information and explanations given to us, the maintenance of cost records has not been specified by the Central Government under section 148(1) of the Companies Act, 2013, hence reporting under clause (vi) of the Companies (Auditor's Report) Order, 2016 ("CARO 2016") is not applicable.
- (vii) According to the information and explanations given to us and the records of the Company examined by us, in respect of statutory dues:
- (a) The Company has generally been regular in depositing undisputed statutory dues, including Employees' State Insurance, Provident Fund, Income-tax, Value added tax, Goods and Services tax, Customs duty, cess and other material statutory dues applicable to it to the appropriate authorities. We are informed that Excise duty is not applicable to the Company.
- (b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Value added tax, Goods and Services tax, Customs duty, cess and other material statutory dues in arrears as at March 31, 2021 for a period of more than six months from the date they became payable.
- (c) There are no dues of Income tax, Sales tax, Customs duty, Value added tax and Excise duty which have not been deposited as on March 31, 2021 on account of disputes. Details of dues of Service tax which have not been deposited as on March 31, 2021 on account of disputes are given below:

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Period to which the Amount Relates	Amount* (Rs. in lacs)
Service Tax Rule, 1994	Service tax	Central Excise and Service Tax Appellate tribunal	October 2010 to March 2011	69.28

* Net of Rs. 23.10 lacs paid under protest

- (viii) According to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to banks and financial institution. The Company has not taken any loans or borrowings from government or issued any debentures.
- (ix) In our opinion and according to the information and explanation given to us, the term loan have been applied by the Company during the year for the purposes for which they were raised. The company has not raised any money by way of initial public offer or further public offer (including debt instruments).
- (x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

**Deloitte
Haskins & Sells LLP**

- (xi) According to information and explanation given to us, the Company has not paid/provided managerial remuneration under the provision of section 197 of the Companies Act, 2013 and hence reporting under clause (xi) of the CARO 2016 is not applicable.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the CARO 2016 is not applicable.
- (xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements etc. as required by the applicable accounting standards.
- (xiv) According to information and explanation given to us, the Company has made private placement of shares during the year under audit.

In respect of the above issue, we further report that:

- a) the requirement of Section 42 of the Companies Act, 2013, as applicable, have been complied with; and
- b) the amounts raised have been applied by the Company during the year for the purposes for which the funds were raised.
- (xv) In our opinion and according to the information and explanations given to us, during the year, the Company has not entered into any non-cash transactions with its directors or directors of its holding, subsidiary or persons connected with them and hence provisions of Section 192 of the Companies Act, 2013 are not applicable.
- (xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934 and hence reporting under clause (xvi) of CARO 2016 is not applicable to the Company.

Bank charges (including commission on credit card collection)	75.51	176.72
Total	9,758.27	7,357.99

27. Finance income

	Year ended March 31, 2021 Rs. in lakhs	Year ended March 31, 2020 Rs. in lakhs
Interest Income on :		
-Bank Deposits	344.54	20.28
-Others	204.31	105.32
Profit on sale of current investment	0.40	194.14
Total	549.25	319.74

28. Depreciation and amortization expense

	Year ended March 31, 2021 Rs. in lakhs	Year ended March 31, 2020 Rs. in lakhs
Depreciation on tangible assets	4,474.24	3,544.58
Depreciation on Right to use asset (refer note 33)	801.57	761.98
Amortization on intangible assets	61.38	49.53
Total	5,337.19	4,356.09

29. Tax expense

	Year ended March 31, 2021 Rs. in lakhs	Year ended March 31, 2020 Rs. in lakhs
Current tax	-	77.82
Adjustment of tax relating to earlier periods	(2.34)	9.61
Deferred tax	26.34	(2.73)
Total	24.00	84.70

30. Earnings Per Share (Basic And Diluted)

Basic EPS amounts are calculated by dividing the loss for the year attributable to equity holders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS amounts are calculated by dividing the loss attributable to equity holders of the Company (after adjusting for interest on the convertible preference shares) by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2021	March 31, 2020
Loss attributable to equity holders (for basic and diluted)	(10,428.23)	(2,601.50)
Weighted average number of Equity Shares (for basic and diluted earnings per share)*	88,274,032	62,382,835
Basic and Diluted earnings per share	(11.81)	(4.17)

* The weighted average number of shares takes into account the weighted average effect of changes in share transactions during the year. There have been no other transactions involving Equity shares or potential Equity shares between the reporting date and the date of authorisation of these financial statements.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

1. Corporate Information

Fleur Hotels Private Limited (the Company) is a private company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The registered office of the company is located at Asset No. 6, Aerocity Hospitality District, New Delhi-110037.

The principal activities of the Company is to carry out business of developing, owning, acquiring, renovating and promoting hotels, motels, resorts, restaurants, etc. under the brand name of Lemon Tree Hotel, Lemon Tree Premier, Red Fox Hotel and Aurika.

The financial statements are approved for issue in accordance with a resolution of the directors on June 15, 2021.

2 Basis of preparation

2.1 Significant accounting policies

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), and the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

The financial statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets and liabilities which are measured at fair value/ amortised cost (refer note 35 below)

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing account standard required a change to the accounting policy hitherto in use.

The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest lakhs, except where otherwise indicated.

2.2 Summary of significant accounting policies

(a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(b) Foreign currencies

Functional and presentation currency

The Company's financial statements are presented in INR, which is also the Company's functional currency. Presentation currency is the currency in which the company's financial statements are presented. Functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash. All the financial information presented in Indian Rupees (INR) has been rounded to the nearest of lakhs rupees, except where otherwise stated.

Transactions and balances

Transactions in foreign currencies are initially recorded by the Company's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition. However, for practical reasons, the Company uses an average rate if the average approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

(c) Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value. External valuers are involved for valuation of significant assets and liabilities. The management selects external valuer on various criteria such as market knowledge, reputation, independence and whether professional standards are maintained by valuer. The management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

The management, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, significant estimates and assumptions (note 31)
- Quantitative disclosures of fair value measurement hierarchy (note 35)
- Financial instruments (including those carried at amortised cost) (note 35)

(d) Revenue recognition

The Company earns revenue primarily from the business of carrying developing, owning, acquiring, renovating and promoting hotels, motels, resorts, restaurants, etc. under the brand of Lemon Tree Premier, Lemon Tree Hotel, Red Fox Hotel and Aurika.

The Company apply Ind AS 115 "Revenue from Contracts with Customers" which establishes a comprehensive framework to depict timing and amount of revenue to be recognised.

In arrangements for room revenue and related services, the Company has applied the guidance in Ind AS 115 for recognition of Revenue from contract with customer, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering room revenue and related services as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price.

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment and excluding taxes or duty. The Company assesses its revenue arrangements against specific criteria to determine if it is acting as principal or agent. The Company has concluded that it is acting as a principal in all of its revenue arrangements. The specific recognition criteria described below must also be met before revenue is recognized.

Sales tax/ value added tax (VAT)/Goods and Service Tax(GST) is not received by the Company on its own account. Rather, it is tax collected on value added to the commodity by the seller on behalf of the government. Accordingly, it is excluded from revenue.

Rooms, Restaurant, Banquets and Other Services

Income from guest accommodation is recognized on a day to day basis after the guest checks into the Hotels and are stated net of allowances. Incomes from other services are recognized as and when services are rendered. Sales are stated exclusive of Value Added Taxes (VAT) /Goods and Service Tax(GST) and Luxury Tax. Difference of revenue over the billed as at the year-end is carried in financial statement as unbilled revenue separately.

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

ownership of the goods have passed to the buyer, sale of food and beverage are recognized at the points of serving these items to the guests. Sales are stated exclusive of Sales Tax / VAT/Goods and Service Tax(GST).

Interest income

For all financial instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or liability. Interest income is included in finance income in the income statement.

Dividends

Revenue is recognized when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Management Fee

Revenue from management services comprises fixed and variable income. Fixed income is recognised pro-rata over the period of the contract as and when services are rendered. Variable income is recognised on an accrual basis in accordance with the terms of the relevant agreement.

(e) Taxes

Taxes comprises current income tax and deferred tax.

Current income tax

The tax currently payable is based on taxable profit for the period/year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss

- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits (including MAT credit) and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets (including MAT credit available) is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Tax benefits acquired as part of a business combination, but not satisfying the criteria for separate recognition at that date, are recognised subsequently if new information about facts and circumstances change. Acquired deferred tax benefits recognised within the measurement period reduce goodwill related to that acquisition if they result from new information obtained about facts and circumstances existing at the acquisition date.

If the carrying amount of goodwill is zero, any remaining deferred tax benefits are recognised in OCI/ capital reserve depending on the principle explained for bargain purchase gains. All other acquired tax benefits realised are recognised in profit or loss.

Sales/ value added taxes/goods and service tax paid on acquisition of assets or on incurring expenses

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

Expenses and assets are recognised net of the amount of sales/ value added taxes/goods and service tax paid, except:

- When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable
- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

(f) Property, plant and equipment(including capital work in progress)

Capital work in progress is stated at cost. Property plant and equipment is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use. Freehold land is not depreciated

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

Depreciation on fixed assets is provided as per schedule II of Companies Act, 2013 on Straight Line Method over its economic useful life of fixed assets as follows:

Fixed Assets	Useful life considered (SLM)
Building	60 Years
Plant & Machinery	15 Years
Electrical installations and fittings	10 Years
Office Equipments	5 Years
Furniture and Fixtures	8 Years
Commercial Vehicles	6 Years
Private Vehicles	8 Years
Computers	3 Years
Crockery, cutlery and soft furnishings	3 Years

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end, and adjusted prospectively if appropriate.

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

(g) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as 3 years and the same shall be amortised on Straight line basis over its useful life.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually at year end either individually or at the cash generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the income statement when the asset is derecognized.

(h) Borrowing costs

Borrowing cost includes interest expense as per Effective Interest Rate (EIR).

Borrowing costs directly attributable to the acquisition or construction of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of the asset until such time that the assets are substantially ready for their intended use. Where funds are borrowed specifically to finance a project, the amount capitalised represents the actual borrowing costs incurred. Where surplus funds are available out of money borrowed specifically to finance a project, the income generated from such current investments is deducted from the total capitalized borrowing cost. Where the funds used to finance a project form part of general borrowings, the amount capitalised is calculated using a weighted average of rates applicable to relevant general borrowings of the company during the year. Capitalisation of borrowing costs is suspended and charged to profit and loss during the extended periods when the active development on the qualifying assets is interrupted.

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial liability or a shorter period, where appropriate, to the amortised cost of a financial liability after considering all the contractual terms of the financial instrument.

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

(i) Leases

The Company assesses that the contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (1) The contract involves the use of an identified asset,
- (2) The Company has substantially all of the economic benefits from use of the identified asset, and
- (3) The Company has the right to direct the use of the identified asset.

Company as a lessee

The Company recognizes right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date plus any initial direct costs incurred. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use asset is depreciated from the commencement date over the shorter of the lease term and useful life of the underlying asset. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments over the lease term. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company adopts the incremental borrowing rate for the entire portfolio of leases as a whole. The lease payments shall include fixed payments, variable lease payments, exercise price of a purchase option and payments of penalties for terminating the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 to leases for which the underlying asset is of low value. The lease payments associated with these low value leases are recognized as an expense on a straight-line basis over the lease term.

Company as a lessor

Leases where the Company does not transfer substantially all the risks and rewards incidental to ownership of the asset are classified as operating leases. Lease rentals under operating leases are recognized as income on a straight-line basis over the lease term.

(j) Inventories

Stock of food & beverages, stores and operating supplies are valued at lower of cost and net realisable Value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a first in first out basis. Net realisable value is the estimated selling price in the ordinary course of business less estimated cost of completion and estimated costs necessary to make sale.

(k) Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the entity operates, or for the market in which the asset is used.

Impairment losses including impairment on inventories, are recognised in the statement of profit and loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit or loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

(l) Provisions

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.

Contingent Assets/ Liabilities

Contingent assets are not recognised. However, when realisation of income is virtually certain, then the related asset is no longer a contingent asset, and is recognised as an asset.

Contingent liabilities are disclosed in notes to accounts when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

(m) Retirement and other employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset to the extent that the pre-payment will lead to, for example, a reduction in future payment or a cash refund.

Retirement benefit in the form of gratuity is a defined benefit scheme. Gratuity liability of employees is accounted for on the basis of actuarial valuation on projected unit credit method at the close of the year. Company's contribution made to Life Insurance Corporation is expensed off at the time of payment of premium.

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the Company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

Retirement benefits in the form of Superannuation Fund is a defined contribution scheme and the contributions are charged to the statement of profit and loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective trusts

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

The company treats leave expected to be carried forward for measurement purposes. Such compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Remeasurement gains/losses are immediately taken to the statement of profit and loss and are not deferred. The company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date. Where Company has the unconditional legal and contractual right to defer the settlement for a period beyond 12 months, the same is presented as non-current liability.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

(n) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)
- Equity instruments in subsidiaries carried at cost

Debt instruments at amortised cost

A debt instrument is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. The difference between the transaction amount and amortized cost in case of interest free loan to subsidiaries based on the expected repayment period is considered as 'deemed investment on account of interest free loan to subsidiaries' (Refer Note 11(iv)). After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. If there is any change in estimate for payment of loan (provided that there was no error in original estimate), difference in carrying amount and repayment has been adjusted as return on capital by the parent, based on condition/ situation prevailing on that date. The losses arising from impairment are recognised in the profit or loss.

Debt instrument at FVTOCI

A debt instrument is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Statement of Profit & Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Statement of Profit & Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Equity investments

All equity investments (other than equity investments in subsidiaries) in scope of Ind AS 109 are measured at fair value. Equity instruments in subsidiaries are carried at cost in separate financial statements less impairments if any. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, trade receivables and bank balance
- b) Financial assets that are debt instruments and are measured as at FVTOCI
- c) Trade receivables or any contractual right to receive cash or another financial asset

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

The Company follows 'simplified approach' for recognition of impairment loss allowance on Trade receivables:

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

At each reporting date, for recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the Company reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contractual revenue receivables and lease receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

Debt instruments measured at FVTOCI: Since financial assets are already reflected at fair value, impairment allowance is not further reduced from its value. Rather, ECL amount is presented as 'accumulated impairment amount' in the OCI.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Financial liabilities

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:
Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The Company has not designated any financial liability as at fair value through profit and loss.

Financial liabilities at amortised cost

This is the category most relevant to the Company. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

This category generally applies to borrowings. For more information refer Note 15.

Financial guarantee

Financial guarantees issued by the Company on behalf of group companies are designated as 'Insurance Contracts'. The Company assess at the end of each reporting period whether its recognised insurance liabilities (if any) are adequate, using current estimates of future cash flows under its insurance contracts. If that assessment shows that the carrying amount of its insurance liabilities is inadequate in the light of the estimated future cash flows, the entire

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

deficiency is recognised in profit or loss.

If a financial guarantee is an integral element of debts held by the entity, it is not accounted for separately.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

(o) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

(p) Measurement of EBITDA

The Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The company measures EBITDA on the basis of profit/ (loss) from continuing operations. In its measurement, the company does not include depreciation and amortization expense, interest income, finance costs and tax expense.

(q) Cash Flow Statement

Cash flows are reported using the indirect method, where by profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(r) **Earnings Per Share (EPS)**

Basic EPS is calculated by dividing the profit for the year attributable to ordinary equity shareholders of the Company by the weighted average number of Equity shares outstanding during the year.

Diluted EPS is calculated by dividing the profit attributable to ordinary equity shareholders of the Company by the weighted average number of Equity shares outstanding during the year plus the weighted average number of Equity shares that would be issued on conversion of all the dilutive potential Equity shares into Equity shares.

(s) **Common Control business combinations**

The Company accounts for business combinations involving entities or businesses under common control using the pooling of interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts. The identity of the reserves are preserved and appear in the financial statements of the transferee in the same form in which they appeared in the financial statements of the transferor. The difference, if any, between the amount recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to Capital Reserve Account and is presented separately as Capital Reserve Account.

In terms of the scheme the amalgamation has been accounted for in accordance with the pooling of Interest Method. As per said scheme, the financial information in the financial statements in respect of prior period has been restated w.e.f the appointed date as if business combination occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination.

31. Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, the accompanying disclosures and the disclosure of contingent liabilities. Uncertainty about these judgements, estimates and assumptions could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur. The estimates and underlying assumptions are reviewed on an ongoing basis and the revisions to accounting estimates are recognized in the period in which the estimate is revised.

Estimation of Uncertainties related to global health pandemic on COVID-19

COVID-19 pandemic has impacted and continues to impact major economic and financial markets around the world. Regular business operations in many countries, have been severely disrupted due to lockdown, travel bans, quarantines and other emergency measures. With respect to operations of the Company it has impacted its business by way of reduction in occupancy of hotels and average realization rate per room starting from the month of March 2020 and management has undertaken various cost savings initiatives to conserve cash. For the month of March 31, 2021, all of the Company's hotels have been operational at 61% occupancy rate. Management believes that the easing of lockdown in India including flight operations and expected increase in business travel would be beneficial for the Company.

In evaluating the impact of COVID-19 on its ability to continue as a going concern and the possible impact on its financial position, the management has assessed the impact of macro-economic conditions on its business and the carrying value of its major assets comprising of Property, Plant and Equipment (PPE), trade receivables and investments in subsidiaries (investments) as at the balance sheet date. In this regard, the Management has carefully considered the circumstances and risk exposures arising from the COVID-19 situation for developing estimates on the basis of all available information in its assessment of impact thereof on its financial reporting.

While assessing the recoverable amount of PPE and investments, the Company has used significant assumptions such as hotel occupancy rates, average room rate per hotel, terminal growth rate and weighted average cost of capital. The Company appointed independent valuer to assess fair values of significant hotel properties owned independently, which covered approximately 78% of value of PPE of the Company. Specifically for investments, the Management has considered (i) the industry in which the investee entity operates (ii) The geographic location of the investee entity (iii) The size of the investee entity (iv) the quantitative significance of the investee entity (v) liquidity risk premiums (vi) appropriateness of valuation techniques and inputs used including current market assessment of credit risk and liquidity risk and (vii) other factors specific to the investee entity. For assessing the recoverable amount of trade receivables, the Company has calculated the expected credit loss from the trade receivables considering amount to be realized from them in future after factoring the impact on credit risk due to COVID-19.

Based on aforesaid assessment, management believes that the Company will continue as a going concern and will be able to meet all of its obligations as well as recover the carrying amount of its aforesaid assets as on March 31, 2021.

Management believes that it has taken into account all the possible impact of known events arising from COVID- 19 pandemic in the preparation of these financial statements. The associated economic impact of the pandemic is highly dependent on variables that are difficult to predict. The impact assessment of COVID 19 is a continuing process given the uncertainties associated with its nature and duration and actual results may differ materially from these estimates. The Company will continue to monitor any material changes to future economic conditions and any significant impact of these changes would be recognized in the financial statements as and when these material changes to economic conditions arise.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

Critical judgements, estimates and assumptions

1. Impairment of property, plant and equipment

Each hotel property is an identifiable asset that generates cash inflows and is independent of the cash inflows of the other hotel properties, hence identified as cash generating units. The Company assesses the carrying amount of hotel properties (CGU) to determine whether there is any indication that those assets have suffered an impairment loss. Where the carrying amount of CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. An impairment loss (if any) is recognised in the statement of profit and loss.

While assessing the recoverable amount, the Company used the discounted cash flow approach including various significant estimates and assumptions such as forecast of future revenue, operating margins, growth rate and selection of the discount rates. The key assumptions used for the calculations are as follows:

<u>Particulars</u>	<u>As at March 31, 2021</u>
Discount Rate (<i>pre tax rate of WACC</i>)	12.00%
Long Term Growth Rate	5.00%

As at March 31, 2021, the estimated recoverable amount of the CGU exceeded its carrying amount and the change in estimated future economic conditions on account of possible effects relating to COVID-19 is unlikely to cause the carrying amount to exceed the recoverable amount of the CGU.

2. Impairment of Investment in subsidiaries and associates

The Company assesses the carrying amounts of investment in subsidiaries and associates to determine whether there is any indication that those investments have suffered an impairment loss. Where the carrying amount of investments exceed its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. An impairment loss (if any) is recognised in the statement of profit and loss.

While assessing the recoverable amount, the Company used the discounted cash flow approach including various significant assumptions such as such as forecast of future revenue, operating margins, growth rate and selection of the discount rates. The key assumptions used for the calculations are as follows:

<u>Particulars</u>	<u>As at March 31, 2021</u>
Discount Rate (<i>pre tax rate of WACC</i>)	12.00%
Long Term Growth Rate	5.00%

As at March 31, 2021, the estimated recoverable amount of the investments exceeded its carrying amount and the change in estimated future economic conditions on account of possible effects relating to COVID-19 is unlikely to cause the carrying amount to exceed the recoverable amount of the investments.

3. Leases

The Company has taken certain land and building on long term lease basis. The lease agreements generally have an escalation clause and are generally non-cancellable. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IND

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

AS 116. Identification of a lease requires judgment. The Company uses judgement in assessing the lease term and the applicable discount rate. The discount rate is generally based on the incremental borrowing rate.

4. Loss Allowance on trade receivables

An impairment analysis of trade receivables is performed at each reporting period based on the Company's history of collections, customer's creditworthiness, existing market conditions as well as forward looking estimates. In calculating expected credit loss, the Company has also considered the likelihood of consequential default considering emerging situations due to COVID-19 and has taken into account estimates of possible effect from the pandemic relating to COVID-19. Basis this assessment, the allowance for doubtful trade receivables as at March 31, 2021 is considered adequate.

Fleur Hotels Private Limited

Notes to financial statements for the year ended March 31, 2021

32. Gratuity

The Company has a defined benefit gratuity plan (funded). The gratuity plan is governed by the Payment of Gratuity Act, 1972. Under the act, employee who has completed five years of service is entitled to specific benefit. The level of benefits provided depends on the member's length of service and salary at retirement age. The fund has the form of a trust and it is governed by the Board of Trustees, which consists of an equal number of employer and employee representatives. The Board of Trustees is responsible for the administration of the plan assets and for the definition of the investment strategy. The Trust Fund has taken a Scheme of Insurance, whereby these contributions are transferred to the insurer. The Company makes provision of such gratuity asset/ liability in the books of accounts on the basis of actuarial valuation as per the Projected unit credit method.

4	8.77	6.14
5	7.11	5.33
Above 5	18.08	18.04
Total expected payments	69.03	52.39

The average duration of the defined benefit plan obligation at the end of the reporting period is 3.67 years (March 31, 2020: 5 years).

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

33. Commitments and contingencies

a. Leases

Operating lease commitments — Company as lessee

The Company has entered into operating leases on hotel buildings, with lease terms between twenty three, twenty five, twenty eight and twenty nine years.

Transition to Ind AS 116

Effective April 1, 2019, the Company adopted Ind AS 116 “Leases” and applied the standard to all Lease contracts existing on April 1, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard has been applied since the commencement date of the lease, but discounted at the Company’s incremental borrowing rate at the date of initial application. Comparatives as at March 31, 2019 and for the year ended March 31, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included in the audited financial statements for the year ended March 31, 2019.

Company as a lessee:

For transition, the Company has assessed whether the contract is, or contains, the lease. The Company has elected not to apply the requirements of IND AS 116 to leases for which the underlying asset is of low value on a lease-by-lease basis and the leases with less than 12 months of lease term on the date of initial application. The Company has used a single discount rate to a portfolio of leases with similar characteristics. The Company has applied its incremental borrowing rate for lease liabilities recognised in the balance sheet at the date of initial application.

The weighted average of incremental borrowing rate applied to lease liabilities, as at April 1, 2019 is 9.72%.

On transition, the Company recognised a lease liability measured at the present value of the remaining lease payments as at April 1, 2019. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement of the lease, but discounted using the lessee’s incremental borrowing rate as at April 1, 2019. Accordingly, a right-of-use asset of Rs. 12,457.72 lakhs and a corresponding lease liability of Rs. 13,613.14 lakhs has been recognized. The cumulative effect on transition in retained earnings net of taxes is Rs. 833.98 lakhs (including a deferred tax of Rs. 321.44 lakhs). On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-of-use asset, and finance cost for interest accrued on lease liability.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

The impact of Ind AS 116 as at 1st April 2019 on the balance sheet line items is as follows:

Particulars	<i>Rs in lakhs</i>		
	As at April 1, 2019 (Before Ind AS 116)	Ind AS 116 Adjustments	As at April 1, 2019(post IndAS 116)
Assets

b. Commitments

Estimated amount of contracts remaining to be executed on capital account and not provided for:

At March 31, 2021, the Company had commitments of Rs. Nil (March 31, 2020: Rs 100.20 lakhs)

c. Contingent liabilities

(i) Legal claim contingency

		<i>Rs. in lakhs</i>	
		March 31, 2021	March 31, 2020
a.	Service Tax	92.38	92.38

The Company's pending litigations above pertains to proceedings pending with Service tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a materially adverse effect on its financial statements.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

- (b) During previous financial year, Meringue Hotels Private Limited (merged with Fleur Hotels Private Limited) amicably settled pending matter pertaining to show cause notice received under Employee State Insurance, Act, 1948 (“ESIC Act”) for recovery of Rs. 21.60 lakhs vide notice dated October 2015 and agreed to make outstanding dues of Rs.11.97 lakhs to ESIC. The Employees Insurance Court, Mumbai, vide order dated February 13, 2020, disposed of the matter as settled between the parties.

(ii) Pledge of shares

- (a) Pledge of 51% of the shareholding held in Hyacinth Hotels Private Limited by the Company for term loan facility availed by Hyacinth Hotels Private Limited. Amount of Loan outstanding as on March 31, 2021 of Rs. 14,593.80 lakhs

e.	Guarantee given on behalf of Berggruen Hotels Private Limited	9,484.89	18,600.00	10,388.29	18,600.00

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

(e) Note on Provident Fund:

Based upon the legal opinion obtained by the management, company is not required to create provisions in books of accounts in view of the judgement of the Hon'ble Supreme court in the case of Vivekananda Vidyamandir vs Regional Provident Fund Commissioner (II), West Bengal and subsequent dismissal of review petition by Hon'ble Supreme court in the case of review petition No. 001972-001973/2019 in civil appeal 3965-3966 in the matter of Surya Roshni Ltd Vs Employees Provident Fund and Another.

Considering the equitable cause, the High Courts may give prospective effect to the judgement which can be done in exercise of inherent powers of High Court under Article 226 of the constitution of India.

In case of Company retrospective effect is remote and at present uniformity is maintained across all brands/grades.

(f) Note on Social Security:

The Code on Wages, 2019 and Code on social security, 2020 ("the codes") relating to employee compensation and post-employment benefits that received Presidential assent have not been notified. Further, the related rules for quantifying the financial impact have not been notified. The Company will assess the impact of the codes when the rules are notified and will record any related impact in the period in which the Codes become effective.

Terms and conditions of transactions with related parties

Outstanding balances with related parties at the year-end are unsecured and interest free and settlement occurs in cash. For the year ended March 31, 2021, the Company has not recorded any impairment of receivables relating to amounts owed by related parties (March 31, 2020: INR Nil). This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

Commitments with related parties

The company has not entered into any commitments with related parties during the year.

35. Fair value measurement

This section gives an overview of the significance of financial instruments for the company and provides additional information on the balance sheet. Details of significant accounting policies, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument

c. Fair value measurement hierarchy for assets and liabilities

Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The Company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

i) Level 1

Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

ii) Level 2

Inputs are inputs that are observable, either directly or indirectly, other than quoted prices included within level 1 for the asset or liability.

iii) Level 3

Inputs are unobservable inputs for the asset or liability reflecting significant modifications to observable related market data or Company's assumptions about pricing by market participants.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities:

36 Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to support its operations. The Company's financial assets include loans, trade and other receivables, and cash & cash equivalents that derive directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's senior management is supported by a financial risk committee that advises on financial risks and the appropriate financial risk governance framework for the Company. This financial risk committee provides assurance to the Company's senior management that the Company's financial risk activities are governed by appropriate policies and procedure and that financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Board of Directors reviews and agrees policies for managing each risk, which are summarised as below:

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of interest rate risk, currency risk and other price risk. Financial instruments affected by market risk include loans and borrowings.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company is carrying its borrowings primarily at variable rate. The Company expects the variable rate to decline, accordingly the Company is currently carrying its loans at variable interest rates.

Fleur Hotels Private Limited**Notes to financial statements for the year ended March 31, 2021***Rs. In lakhs*

	March 31, 2021	March 31, 2020
Variable rate borrowings	87,594.28	86,447.27
Fixed rate borrowings	181.50	211.50

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Rs. In lakhs

Particulars	Increase/decrease in basis points	Effect on profit before tax
March 31, 2021		
INR	50	461.79
INR	-50	(461.79)
March 31, 2020		
INR	50	372.73
INR	-50	(372.73)

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company has no exposure in foreign currency.

Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables and deposits to landlords) and from its financing activities, including deposits with banks and other financial instruments.

(a) Trade receivables

Customer credit risk is managed by each business location subject to the Company's established policy, procedures and control relating to customer credit risk management. Credit quality of a customer is assessed and individual credit limits are defined in accordance with the assessment both in terms of number of days and amount.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 11. The Company does not hold collateral as security.

Fleur Hotels Private Limited
Notes to financial statements for the year ended March 31, 2021

(b) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Company's treasury department in accordance with the Company's policy. Investment of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2021 and 31 March 2020 is the carrying amount as given in Note 11.

Liquidity risk

The Company monitors its risk of a shortage of funds by estimating the future cash flows. The Company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, cash credit facilities and bank loans. The Company assessed the concentration of risk with respect to refinancing its debt and concluded it to be low. The Company has access to a sufficient variety of sources of funding and debt maturity within 12 months can be rolled over with existing lenders. As at March 31, 2021, the company had available Rs. 1,100 lakhs (March 31, 2020: 1,700 lakhs) of undrawn committed borrowing facilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

	<i>Rs. In lakhs</i>					
	On demand	Less than 3 months	3 to 12 months	1 to 5 years	> 5 years	Total

Particulars	As at March 31, 2021	As at March 31, 2020
Minimum Lease Payments :		
Not later than one year	1,630.08	1,501.08
Later than one year but not later than five years	6,913.17	6,663.92
Later than five years	42,743.11	44,622.69
Total	51,286.96	52,787.69

37 Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, interest bearing loans and borrowings, trade payables, less cash and cash equivalents.

	<i>Rs. In lakhs</i>	
	<u>March 31, 2021</u>	<u>March 31, 2020</u>
Borrowings (Note 15 and Note 19)	87,775.78	86,658.78
Trade payables (Note 19)	5,781.83	5,413.93
Less: cash and cash equivalents (Note 11)	5,725.46	1,529.55
Net debt	87,832.16	90,543.17
Total capital	164,625.90	157,575.62
Capital and net debt	252,458.06	248,118.79
Gearing ratio	35%	36%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements.

Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2021 and March 31, 2020.
