LTH's Sustainability Initiative
AN OPPORTUNITY FOR PEOPLE WITH DISABILITIES TO REALISE THEIR ABILITY AND LIVE WITH DIGNITY

Despite the fact that we are progressing and achieving new heights almost every day, people with disabilities (PWDs) have a very limited scope to make their career path or get a dream job. There are not enough resources or further education and job mapping for them. In such circumstances, the Sustainability Initiative at Lotus Tree Hotels (LTH) which is committed to train and work with PWDs, is a remarkable initiative to offer them the path to an employment opportunity that is a must-follow career industry.

When Burbucks brings men to this, there is an example...

Rahul Bose

Instead of ignoring the situation, the enterprise plans to strategically and methodically adapt their business model to include disabled workers. Lotus Tree Hotels (LTH) has been a driving force in this regard. Through employment of PWDs, LTH not only ensures a common workplace culture, but also ensures that the employees are treated with dignity and respect.

When it comes to the critical issue of workplace diversity, Lotus Tree Hotels has taken a lead in the hospitality sector. By incorporating PWDs into their workforce, they are not only addressing the issue of employment opportunities but also contributing to a more inclusive and diverse workplace culture.

This initiative is not only beneficial for the employees but also for the company as a whole. It helps in creating a more positive work environment, which in turn improves employee satisfaction and productivity.

The initiative also highlights the importance of supporting and empowering individuals with disabilities, helping them to realise their full potential and make a valuable contribution to society.

In conclusion, Lotus Tree Hotels' initiative is a step forward in promoting workplace diversity and inclusion. It sets an example for other organisations to follow and encourages them to take similar steps towards creating an inclusive workplace culture.
